Children's Classes

Orange is a path, a strategy that combines the strength of two—yellow and red—to create the brilliance of another, Orange. By combining the critical influences of the light of the church (yellow) and the love of the family (red), the Orange strategy synchronizes efforts and shows a generation who God is, more effectively than either could alone. The Orange Strategy draws on the elements of wonder, discovery and passion, infusing them into children, students and young adults. Why? To see God for who He is, to help young people see themselves the way God sees them, so that they can love others the way God does.

Preschool/Pre-K: Room: 102:

Several people will be rotating to teach.

Starting with wonder, Orange helps preschoolers embrace a God who is bigger than their imagination, then adds discovery so children can understand how to grow in their relationship with God. Finally, Orange fuels passion by giving students opportunities to be the church and to make a difference influencing their generation.
